

HOSPITAL PREPAREDNESS PROGRAM

INDIANA

HPP FUNDING

42% decrease in funding
since FY 2013

HIGHLIGHTS

- Indiana uses HPP funds to build a robust emergency preparedness and response foundation for the state’s population of 6.5 million
- 139 hospitals participate in Indiana’s ten health care coalitions (HCC)
- In FY 2017, Indiana’s HCCs increased their ability to leverage and allocate resources among HCC members, while also strengthening emergency management skills
- All of Indiana’s HCCs have documented their regional boundaries

HCC CORE MEMBER PARTICIPATION

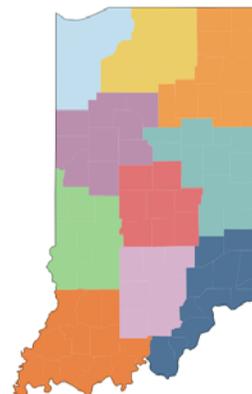

SPOTLIGHT ON RESPONSE: HIV Outbreak in Scott County

Indiana State Department of Health (ISDH) responded to an HIV Outbreak in Scott County, IN due to the sharing of needles among injection drug users from 2015-2017. During the response, 470 of the 530 named contacts were located and offered testing; 205 tested positive. One of the primary objectives was to support Scott County Health Department in starting a syringe exchange program. The District HCC and its members were essential partners providing resources, volunteers, and sharing information. Since then, ISDH has made great strides in stopping the spread of disease.

FY 2018 PRIORITIES

- **Strengthen Role of HCC Core Members:** Integrate core members into HCC governance and support core members to develop preparedness plans
- **Incident Management:** Determine how HCCs will liaise when serving in an ESF-8 capacity
- **Countermeasures & Mitigation:** Coordinate between public health representatives and HCCs to plan for dispensing medical countermeasures
- **Disaster Planning:** Participate with the federal government in the Region V Earthquake Public Health and Medical Planning workshops

10 Health Care Coalitions
