

HOSPITAL PREPAREDNESS PROGRAM

SOUTH DAKOTA

HPP FUNDING

34% decrease in funding
since FY 2013

HIGHLIGHTS

- South Dakota demonstrates continued focus on strengthening its four health care coalitions (HCCs) through robust governance, autonomy, and sustainability. An executive committee comprised of the HCC coordinator, fiduciary agent, and core member leaders leads each HCC.
- Members of each HCC's executive committee take part in the statewide HPP governing board, which helps guide the program by sharing resources and aligning priorities across the state.
- Each HCC has identified its own fiduciary agent; three are hospitals, and one is a local emergency management agency.

HCC CORE MEMBER PARTICIPATION

of hospitals

of Emergency Medical Services

of public health departments

of emergency management organizations

SPOTLIGHT ON PLANNING: STURGIS MOTORCYCLE RALLY

- SD's Region 1 HCC prepares for and responds to the Sturgis Motorcycle Rally every Summer, which brings hundreds of thousands of visitors to a small community.
- The planning team, including the local hospital, EMS, public health, emergency management, and National Guard establish response plans for patient movement, hospital surge, and fatality management.
- Medical volunteers are deployed through the state's emergency system for volunteer health professionals to support the event.

FY 2018 PRIORITIES

- **Countermeasures & Mitigation:** Engage HCCs in tabletop exercises regarding access and distribution of the state's vendor-managed inventories.
- **Community Resilience:** Support HCCs in conducting short-term and long-term planning to address sustaining self-sufficient and self-directed coalitions.
- **Surge Management:** Maintain coalition-level caches of medical surge supplies needed by hospitals and other health care organizations during an event.
