

HOSPITAL PREPAREDNESS PROGRAM

UTAH

HPP FUNDING

28% decrease in funding
since FY 2013

HIGHLIGHTS

- Utah uses HPP funds to build a robust emergency preparedness and response foundation for the state’s population of 3.1 million
- 56 hospitals participate in Utah’s seven health care coalitions (HCCs), which were established in 2010
- Over 85% of Utah’s HCCs have a formal self-governance structure that HCC members review and validate regularly
- The Utah Department of Health (UDOH) has a close partnership with the Intermountain Center for Disaster Preparedness, providing expert healthcare preparedness and response training within the state and to external partners

HCC CORE MEMBER PARTICIPATION

of hospitals

of Emergency Medical Services

of public health departments

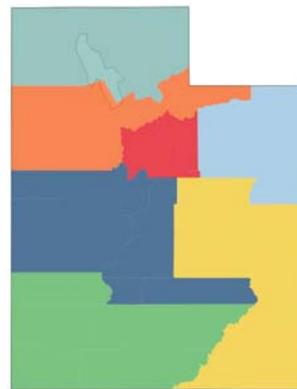

of emergency management organizations

SPOTLIGHT ON PREPAREDNESS: Regional Leadership

- UDOH continues to support a multi-state pediatric and burn consortia, which is an overall capability and capacity gap throughout Region VIII.
- The University of Utah Burn Center, supported by HPP, leads the Western Region Burn Disaster Consortium (WRBDC) and has developed a Burn Crisis Standards of Care Plan, with corresponding clinician training provided throughout the Region.
- UDOH and WRBDC frequently conduct burn bed availability drills with member facilities.

FY 2018 PRIORITIES

- **Countermeasures & Mitigation:** Engage HCC members to increase awareness of medical countermeasures plans and protect the health care workforce with trainings on workplace violence and psychological resiliency
- **Community Resilience:** Engage communities and health systems by developing value propositions for HCC participation
- **Surge Management:** Ensure establishment of a coordinated system to respond and support facility evacuation or alternate care site establishment within each coalition region
