

HOSPITAL PREPAREDNESS PROGRAM

TEXAS

HPP FUNDING

HIGHLIGHTS

- Texas' (TX) eight HPP partners are 501(c)(3) organizations, which provide oversight, coordination, and fiduciary administration for TX's 20 health care coalitions (HCCs) and eight Emergency Medical Task Force (EMTF) units.
- TX's Department of State Health Services continues to collaborate with stakeholders, HCCs, and partners to identify a statewide disaster patient tracking system.
- HPP exercises have improved patient care, increased capacity, and limited disease spread.

of acute care hospitals

of emergency medical services

of public health agencies

of emergency management agencies

SPOTLIGHT ON RESPONSE

Texas relied on alternate care sites (ACS) to ease the burden on hospitals at critical capacity during the COVID-19 response. In partnership with the SouthEast Texas Regional Advisory Council (SETRAC), the Medical Resorts in Houston, TX converted from transitional care facilities to COVID-only treatment centers for non-severe COVID-19 patients. Only serving COVID-19-positive patients streamlined logistics, prevented cross-spread to noninfected patients, and reduced the need for COVID-19 units in hospitals.

COVID-19 RESPONSE

- As a well-trained pediatric Special Pathogen Treatment Center, TX Children's Hospital adapted to support adult patients during the COVID-19 response, which has been beneficial to the community at large.
- With the biggest prisoner unit in southeast TX, the University of Texas Medical Branch used HPP funding to expand its capabilities to house and treat a higher capacity of incarcerated individuals with COVID-19 or a disease caused by other special pathogens.

22 Health Care Coalitions

NATIONAL SPECIAL PATHOGEN SYSTEM

1 Regional Ebola and Other Special Pathogen Treatment Center

1 Special Pathogen Treatment Center

FY19 end-of-year data, HCC count, and map as of 6/30/2020. Participation rate equals # of HCC member organizations divided by the total # of organizations in TX.
