

HOSPITAL PREPAREDNESS PROGRAM

NEW HAMPSHIRE

HPP FUNDING

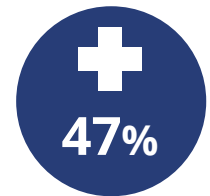

38% decrease in funding
since FY 2013

HIGHLIGHTS

- New Hampshire (NH) uses HPP funds to build a robust emergency preparedness and response foundation for the state's population of 1.3 million.
- Twenty-six acute care hospitals (ACH) participate in NH's 13 health care coalitions (HCCs), which are in transition to form one statewide HCC. Considering NH's size, population density, and number of ACH's, members decided that one HCC will be more effective and efficient than 13 separate HCCs.
- All of NH's HCCs have defined regional networks that activate a multi-agency coordination entity to lead the response during an incident or event.

HCC CORE MEMBER PARTICIPATION

of hospitals

of Emergency Medical Services

of public health departments

of emergency management organizations

SPOTLIGHT ON PLANNING: Granite State HCC Reorganization

- In December 2017, the NH Department of Health and Human Services (DHHS) awarded HPP funds to the Foundation for Health Communities, a non-profit organization in NH. The decision to transition from 13 HCCs to one was a year-long process and a mutual decision by the four core members of the former HCCs and NH DHHS.
- The Granite State Health Care Coalition (GSHCC) has mounted an ambitious recruiting effort to reach out to potential and current members to learn more about the mission of the HCC and to promote joining the HCC.

FY 2018 PRIORITIES

- **Community Resilience:** Conduct exercises and drills to operationalize response plans
- **Incident Management:** Establish incident command structures for health care organizations and HCCs
- **Countermeasures & Mitigation:** Manage access to and administration of pharmaceutical and non-pharmaceutical interventions
- **Information Management:** Share situational awareness across the health care and public health systems
- **Surge Management:** Conduct health care facility evacuation planning and execute evacuations
