

HOSPITAL PREPAREDNESS PROGRAM

TEXAS

HPP FUNDING

39% decrease in funding
since FY 2013

HIGHLIGHTS

- Texas uses HPP funding to build a robust emergency preparedness and response foundation for the state's population of 28 million
- HPP contractors manage 22 health care coalitions (HCC) with thousands of members across the state
- Emergency Medical Task Force (EMTF) units have deployed in all major events in Texas
- Texas has endured the greatest number of declared disasters in US history

HCC CORE MEMBER PARTICIPATION

of hospitals

of Emergency Medical Services

of public health departments

of emergency management organizations

SPOTLIGHT ON PREPAREDNESS: Tranquil Terminus Exercise

- In 2018, Texas participated in a multi-state Ebola patient movement and management exercise called Tranquil Terminus
- The Texas State Department of Health Service (DSHS) incident management personnel were activated and deployed for this exercise to improve information sharing and coordination
- One of Texas's HCCs, the Southeast Texas Regional Advisory Council, coordinated patient ground transportation in collaboration with the State Medical Operations Center and Federal Regional Emergency Coordinators to ensure continuity of patient care

FY 2018 PRIORITIES

- **Community Resilience:** Texas HCCs are developing preparedness plans that incorporate annual hazard and vulnerability analysis and identify coalitions' gaps and resource needs
- **Incident Management:** HCC leaders and DSHS regional managers will collaborate to develop a template for the HCC Response Plan to ensure coalition level response capabilities
- **Surge Management:** DSHS is partnering with the EMS for Children Program to implement a facility recognition program, which recognizes providers who demonstrate the ability to receive, stabilize, and manage pediatric patients
