What You Need to Know about:

The Emergency Prescription Assistance Program
Provided by the U.S. Department of Health and Human Services
Office of the Assistant Secretary for Preparedness and Response

What is EPAP?

The Emergency Prescription Assistance Program, or EPAP, helps uninsured people after disasters to be sure they still have the medicines and medical equipment they normally use to stay health.

The program pays for prescription medications, specific medical supplies, vaccines, and certain medical equipment. The program provides a 30-day supply of covered drugs and medical supplies that can be renewed every 30 days for as long as EPAP is active. Currently, more than 72,000 pharmacies participate in EPAP.

Is EPAP for me?

EPAP was created to help people who don’t have any other form of health insurance. If you have health insurance, such as an individual health insurance policy or employer-sponsored coverage, or Medicare or Medicaid, or other third party coverage, are you are not eligible to receive assistance under EPAP.

For eligible residents, the program covers:

• certain prescription drugs
• specific medical supplies
• vaccines
• certain medical equipment, including canes, walkers, wheelchairs and crutches

If you are eligible for the program, you can:

• refill a prescription that you didn’t get a chance to refill before the disaster
• replace medications and medical equipment that was lost or damaged in the disaster
• replace medication and medical equipment that was lost or damaged while you were evacuating or at an evacuation location

How do I apply for EPAP?

People who live in the disaster area and do NOT have any form of prescription insurance should call the EPAP enrollment toll-free hotline at 1-855-793-7470. You will be asked to provide information to enroll in the EPAP program and receive the no-cost services outlined above. This program is paid for by Department of Health and Human Services’ Office of the Assistant Secretary for Preparedness and Response (ASPR).
